WORK EXPERIENCE

Digital Marketing (Intern) – Net Solutions

12/2025 – Now

- Conducted audience research using AI-assisted research workflows, search validation, and client feedback analysis to refine targeting strategies.
- Monitored campaign performance across key metrics including Reach, Impressions, CTR, CPC, CPM, Frequency, and Leads to identify optimization opportunities.
- Optimized campaign performance by adjusting audience attributes, testing ad copy variations, replacing underperforming creatives, and pausing ineffective ads based on performance data.
- Supported Google Ads and SEO initiatives through keyword research, search intent analysis, and campaign performance reporting.
- Prepared weekly performance reports and collaborated with internal teams to improve campaign effectiveness and support data-driven decision making.

Data Labelling & Operation (Part-time) – Trusting Social

03/2025 – 12/2025.

- Coordinated project-based data annotation workflows, including task intake, requirement clarification, workload distribution, and progress tracking.
- Performed quality assurance on labeled datasets to ensure compliance with project guidelines and data quality standards.
- Collaborated with Data Scientists and project stakeholders to clarify annotation requirements, resolve issues, and improve operational efficiency.
- Prepared regular progress reports, monitored data volumes, and proactively escalated risks or quality concerns throughout project execution..
